

Expedition Itinerary

Wild Cultural Adventure with Richard Knocker

Richard Knocker, has come up with an adventure that ticks all the John Stevens Expeditions Africa boxes. His dream itinerary focuses on culture and walking, taking you out of the vehicle and into the heart of an immersive wilderness experience.

Richard's passion for the bush life is equal to John's and he revels in the opportunity to introduce like-minded enthusiasts to the joys of the African wilderness. He is endlessly fascinated by the whole spectrum of the wonderful show that Nature lays on for us. And this includes the chance to slow down and use all of our senses to seek out the less obvious treasures.

This adventure starts by driving south through the Great Rift Valley and up into the Mbulu Highlands, before dropping down to Yaeda Valley and the heartland of the Hadzabe (or Hadza) hunter-gatherers. The cultural experiences you'll enjoy here are based on the Hadzabe's own terms – authentic, sensitive, and respectful – and give a privileged view into their real way of life in their ancestral land.

From here, you'll spend a night at Kisima Ngeda for some welcome R&R and then on to the Serengeti and days spent exploring the area around Olmara Camp, looking for the big cats for which the area is famous, with two nights' fly camping in the wild.
